

May, 2011

Parents,

The attached School Report Card is a report of the 2009-2010 educational progress for Greenwood Elementary. The report includes a collection of last year's testing (spring 2010). It represents data from all public schools across the state of Oklahoma and is generated by our state Education Oversight Board. As you preview the report, you will see that the information provides our test results and also compares our students' performance in reading and math on the Oklahoma Core Curriculum Tests to Oklahoma school averages.

The graphic representation indicates that 62% of last year's third grade students at Greenwood scored Satisfactory & Above in Math and 78% in Reading. The graph also tells us Greenwood's third graders scored above the state average in Reading and below the state average in Mathematics.

For last year's fourth graders at Greenwood, the graph indicates that 73% scored Satisfactory & Above in Math and 84% in Reading. As you can see in comparison, Greenwood's scores were above the state averages in both core areas.

It is our desire that you look over this report carefully. Please know that Greenwood will continue to strive for high academic performance. In addition, it is our goal to provide educational opportunities beyond these reported core areas of reading and math.

We recognize that Greenwood's educational successes are directly impacted by your involvement. We firmly believe that the strong relationships we continue to build with our students and their families will help each child reach their full potential.

Greenwood wants to say "thank you" for past successes and once again look forward to teaming with you for future educational opportunities at Greenwood. If you have any questions, please call my office at 458-4120. As always, I look forward to visiting with you any time.

Sincerely,

Susan VanZant, Principal
Greenwood Elementary School
